

My Science Story Project Proposal and Outline:

a. Summary. A summary of the proposed project, including the rationale for the proposed question, a statement of specific goals, how will you answer your question, and the potential significance of the research.

b. Background and Significance. Explain background information necessary to understand the proposed question.

c. Preliminary Data. Have you completed any research or experiments thus far? What were the results?

d. Experimental Design and Methods. Discuss how you will reach your goal and answer your research question. Describe the protocols to be used and provide a tentative timetable for the investigation.

e. References. List all references to complete project proposal
